

Worcester Cathedral is the inspiring setting for Worcester County Council's seventeenth "Voices and Visions" art exhibition where schools in the area have been invited to submit work. This year, our Young Arts grant funded experienced and qualified artists to spend three days in five schools where the pupils have special educational needs.

Based on the theme 'Our Generation', the artists facilitated pupils with diverse and complex needs to create the large scale, 3-D artwork which is now on display and which has impressed visitors to the Cathedral.

In the current climate of scarce resources, particularly in the field of artistic endeavour, our grants have been highly valued by the schools and pupils involved who have produced the exhibits pictured.

The "Voices and Visions" exhibition closed on 11 June 2017
